EMERGENCY & RISK
MANAGEMENT
SERVICES

Background

LSI has been successfully providing consulting services for private industry, healthcare systems, public safety agencies, non-profit organizations, and government agencies at the local, state and federal levels for more than 25 years.

Our collaborative approach provides expertise in crisis leadership and communication, change management, education and training, investigative services, hazard vulnerability and business impact assessment and recovery services.

LSI guides organizations to implement evidence-based solutions for all levels, from executive leadership to frontline personnel, to meet the evolving needs of management, staff, clients and community.
